#### Important Information for MCSR/Business Address

- Every person who does more than prescribe at a site who stores/orders, dispenses or administers controlled substances at a site needs an MCSR associated with that site address.
- If a person only prescribes controlled substances and does not store/order, dispense, or administer controlled substances, that person needs just one MCSR. That MCSR can be used at multiple locations so long as the person is only prescribing at each location.
- Every site/business address which receives and stores controlled substances needs either a facility MCSR, or a person with an MCSR associated with that site address who is responsible for those activities at that site.

#### Important Information on DEA Number Requirement

- MCSR registrants must have an active DEA number and matching drug schedules within 90 days of receiving their MCSR. After 90 days without an active DEA number, the registrant's MCSR will be in jeopardy of being dropped to Schedule VI permissions only.
- DEA does not license Schedule VI.
- The Drug Control Program will continue to monitor that registrants have an active DEA license for the same drug schedules.

## Important Information for Supervising Physicians, Qualified Healthcare Professionals and Advanced Practice Providers

- Advanced Practice Providers (PAs, CDTM pharmacists, and APRNs who do not meet the
  requirements for independent prescriptive practice) must have a Supervising Physician or Qualified
  Healthcare Professional in each of their practice settings.
- An advanced practice provider may have multiple supervising physicians, or qualified healthcare
  professionals, and a supervising physician or qualified healthcare professional may supervise multiple
  advanced practice providers.
- A supervising physician and/or qualified healthcare professional must have an active MCSR.
